

### **Company background:**

I-design is a design concept office with over 15 years experience that caters for commercial and residential properties. We take pride in our work and we love what we do, this is what makes us a great team.

In order to achieve maximum functionality we really listen to our client's needs and make them feel as comfortable as possible and explain in detail the process step by step. We always make it a point to complete the project on time but not lowering our standards.

When designing a property we try to highlight the best possible characteristics, apart from originality we stride to find a perfect balance for basic necessities and functionality.

We also offer project management at very good monthly rates.

**Prices:** prices vary according to complexity and size

**Packages:** *Several packages are available, listed below*

- a) Working drawings, electrical + plumbing plans, furniture layouts, kitchen elevation layouts, soffit plans, circuit plan, bathroom layouts etc..
